Program Description

Meta House specializes in serving **women** who want to overcome their substance abuse and build a good life for themselves and their children. To recover from the effects of alcohol and drug abuse, the staff at Meta House is ready to help women with every part of their lives including jobs, housing and parenting. Therefore, we provide services that will not only help our clients stop using alcohol and drugs, but will help them and their family build a better life together. Meta House's Vocational/Educational Services Department provides an array of services designed to assist women with the acquisition of skills and work habits necessary to gain and retain employment. There are two levels of care available to women, depending on their individual needs:

- 1) **Day Treatment Program.** Our day treatment program is for women who need the support and structure that comes from attending treatment four days per week. **Child care** is provided during treatment.

- 2) **Housing Program.** Our housing program is for women who have completed treatment and need a safe and affordable place to live to help them maintain their recovery. Meta House has four buildings with attractive, furnished one, two and three bedroom apartments where the woman and her children (all ages) can live. Meta House provides a range of services for the mother and her children.
